# Why choose VELUX?

We manufacture the largest range of roof window blinds and shutters on the market, so you're spoilt for choice. VELUX blinds and shutters are made especially for VELUX roof windows. They're easy to fit and made for long-lasting and reliable performance.

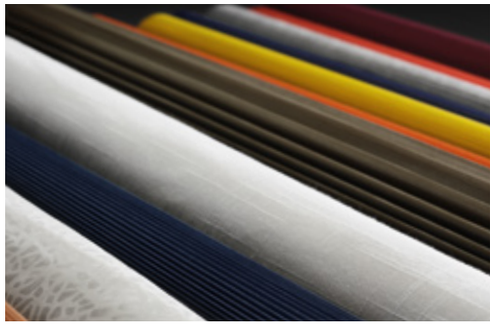
3 YEARS GUARANTEE

ON VELUX BLINDS, ELECTRICAL PRODUCTS AND ACCESSORIES

### The perfect blind for you

Controlling warmth and daylight in your home is key to achieving the perfect indoor environment.

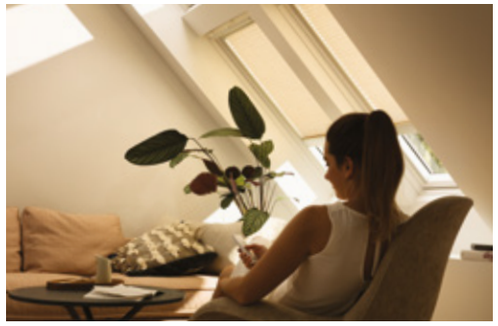
VELUX blinds are an important part of getting your indoor climate just right, giving you more flexibility and control – whether in a loft bedroom or kitchen extension.



### A collection of colours

Whether you're looking for a sophisticated design for a stylish living room or a pop of colour for a child's bedroom, VELUX have the right blind for your space.

Choose from a wide selection of colours and patterns that complement your room. With hidden cords, slim designs and OKEO-TEX® fabrics, our blinds have quality built in.

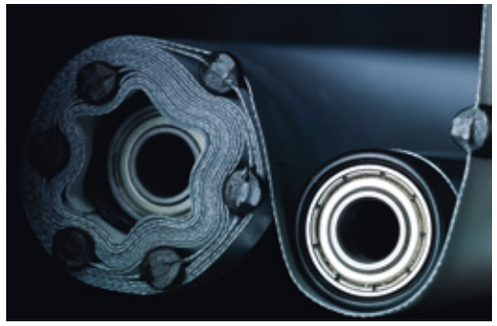


### Comfort and convenience

Choose from manual, solar powered or electrically operated VELUX blinds – whichever best suits your needs.

Solar powered blinds are suitable for VELUX INTEGRA® solar or manual VELUX roof windows, and similarly electrically operated blinds can be fitted to VELUX INTEGRA® electric centre pivot roof windows.

**See p9 for details on VELUX ACTIVE with NETATMO.**



### It's all in the details

Our high performance blinds and shutters are built to last. They are rigorously tested to ensure flawless operation even after years of everyday use and exposure to sunlight. For generations, VELUX engineers and designers have been perfecting our products and patented solutions. That's why VELUX blinds and shutters are always the best choice for your VELUX roof windows.

## Just a Pick&Click!™ away

VELUX blinds feature the unique Pick&Click!™ mounting system. This patented VELUX installation method means they can be fitted in minutes. No matter what type of VELUX roof window you have – large or small, old or new – all our blinds will fit flawlessly every time.

### Safety and security

The **child safe hidden cord design*** featured in VELUX blinds eliminates dangling cords to improve safety in the home. **OEKO-TEX®** certified textiles on blackout blinds ensure no harmful substances are used.

* All VELUX internal blinds are power operated or cordless operated and fulfil the safety in use requirements in EN 13120:2009+A1:2014 and EN 60335-2-97:2006+EN 60335-2-97:2006/A12:2015

Reduce **heat intake** by up to 75% with a VELUX awning blind*

## External blinds and shutters

**Awning blinds**

- Control how much heat and light enters your home.

**Roller shutters**

- Offer total blackout and reduces solar heat by up to 94%.*
- Can be used to keep the heat inside during colder months.

Improve **insulation** by up to 25% with VELUX blackout energy blinds*

## Internal blinds

**Blackout**

- Blackout your bedroom for a great night's sleep. Choose blackout energy blinds to reduce heat loss by up to 25%*.

**Light adjustment**

- Diffuse daylight rather than block it out completely. Choose VELUX roller blinds as a simple, stylish solution to soften incoming light and achieve basic privacy.

# Improving your home's indoor climate

Your VELUX roof windows bring warmth and daylight into your home. Controlling these elements with the help of VELUX blinds and shutters is key to achieving an ideal indoor climate.

VELUX blinds and shutters provide extra insulation, daylight control and heat protection, helping reduce your home's energy consumption. With VELUX INTEGRA® solar or electric powered operation, you get the added convenience of a pre-paired wall switch to open and close easily.

See how you can control your indoor climate automatically with VELUX ACTIVE. Find out more on page 9.

## Protect your home against the heat

Passive heating from the sun is a major benefit on a cold day, but can lead to overheating in warmer months. VELUX roller shutters can reduce the heat impact of the sun by up to 94%*.

## Protect your home against heat loss

Although VELUX roof windows are well insulated, interior VELUX blackout energy blinds can further reduce heat loss by up to 25%*. This extra insulation is especially important on a chilly night during the winter months.

* The technical values of various accessories are determined through standardised tests and calculations, all in compliance with the international standards EN ISO 12567-2, EN 13363-2 and ISO 15099. Effect depends on type of roof window and glazing.

Please note that when blinds are rolled down the risk of condensation is increased. Therefore rolling up the blind after use and ventilating regularly is recommended.

# VELUX INTEGRA® solar powered and electric blinds and shutters

Enjoy more comfort with VELUX INTEGRA® blinds and shutters. Designed to work in harmony with your VELUX INTEGRA® solar powered and electric roof windows, these blinds are perfect for adjusting daylight in out-of-reach areas. VELUX offers a wide range of blinds for blackout, heat protection, insulation, privacy and decoration. All VELUX INTEGRA® solar powered and electric blinds come with a pre-paired wall switch for easy operation.

All VELUX electric and solar powered products are io-homecontrol® compatible. io-homecontrol® labelled products communicate with each other to improve comfort, security and energy savings. Learn more at io-homecontrol.com

**Power with the grid or the sun**

VELUX INTEGRA® solar and electric powered blinds and shutters use mains or wireless solar power to give you remote control at the touch of a button.

VELUX INTEGRA® solar blinds and shutters are designed to work with solar and manually operated VELUX roof windows.

VELUX INTEGRA® electric blinds and shutters are designed to work with VELUX INTEGRA® electric roof windows.

# VELUX ACTIVE

VELUX ACTIVE works together with your VELUX INTEGRA® solar powered and electric roof windows, blinds and shutters, adjusting them automatically so your family enjoys a healthier indoor climate.

# Replace and upgrade. It's just so easy!

Founded in 1941, VELUX is the original roof window manufacturer, giving us decades of experience. You can still order blinds that fit almost every generation of VELUX roof window, so whether you're planning a renovation, relocating or simply want to change the look of your room, a VELUX blind is the only choice for reliable, high quality operation.

You can even change your blinds when you change the function of the room to improve comfort for sleeping, playing, cooking, entertaining and relaxing!

VELUX blinds come in such a wide variety of beautiful designs and patterns that you're sure to find the perfect style upgrade for your space.

Made to measure – find your roof window code on the sash.
For more information turn to page 12

**WHEN IS IT TIME FOR A REPLACEMENT?**

- Renovation
- Redecoration
- Smart home upgrade
- Energy savings
- More flexibility
- Wear and tear

VELUX replacement blinds available from €66.42
See page 36.

## Fitted in minutes

You can fit a new VELUX blind to a VELUX roof window of any age and any size, as our roof windows feature the unique Pick&Click!™ mounting system, meaning your blind can be fitted in minutes.

## Time for an upgrade

For out-of-reach roof windows why not upgrade to a solar powered blind with automatic operation from a simple wall switch. Suitable for VELUX INTEGRA® solar powered and manual roof windows.

## Quality as standard

They may be quick to install, but they're made to last. All VELUX blinds come with a 3 year guarantee, excluding replacement blackout blinds which have a 2 year guarantee.

# How to select and install your blinds

Selecting your VELUX blinds and shutters is easy. Just follow our simple five step process to get the perfect solution for you.

## 1 Find your window type and size

When you open your VELUX roof window you will find a data plate on top of the sash, either on the right or left hand side. Data plates differ in appearance depending on the age of your VELUX roof window.

Find yours from the examples to the right. This will give you the correct type and size of your window model.

## 2 Select your blind type

You can choose an interior and/or exterior VELUX blind or shutter that meets your needs including blackout, light adjustment, heat control, or insect protection. Once you've selected your blind, see the relevant pricing table on pages 36-39.

| | Blackout | | | | Light adjustment | | | | External heat protection | | | Insect protection |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Blackout | Duo blackout | *Blackout/ Light-dimming energy | Children's collection | Roller | *Pleated | Venetian | Roman | *Awning | Roller shutter | Soft shutter | Insect screen |

* Also available for VELUX flat roof windows

●○○ Basic performance ●●○ High performance ●●● Superior performance

## 3 Select operation method

There are three operation methods to choose from. Manual blinds are a good option when your roof windows are within reach, while our solar powered or electric blinds are ideal for out-of-reach areas.

| | Blackout | | | | Light adjustment | | | | External heat protection | | | Insect protection |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Blackout | Duo blackout | *Blackout/ Light-dimming energy | Children's collection | Roller | *Pleated | Venetian | Roman | *Awning | Roller shutter | Soft shutter | Insect screen |
| Manual | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | | | ✓ |
| Remote control: solar | ✓ | | ✓ | | ✓ | ✓ | | | ✓ | ✓ | ✓ | |
| Remote control: electric | ✓ | | ✓ | | ✓ | ✓ | | | ✓ | ✓ | | |

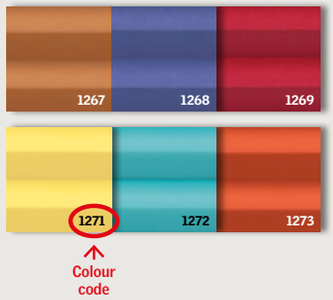
Compatible with VELUX ACTIVE

* Also available for VELUX flat roof windows

## 4 Colour choice

VELUX blinds are available in a wide range of colours and designs. Each colour and design option has a unique code. Add this code on to your blind type and size when ordering your blinds.

See our full range of blinds or order colour swatches at **veluxshop.ie**



## 5 Installation

VELUX blinds and shutters are made to fit your VELUX roof windows perfectly. Our unique Pick&Click!™ system means you can fit them in minutes. New VELUX roof windows are fitted with pre-installed brackets to ease installation and to ensure a perfect fit every time.

Pick&Click!®

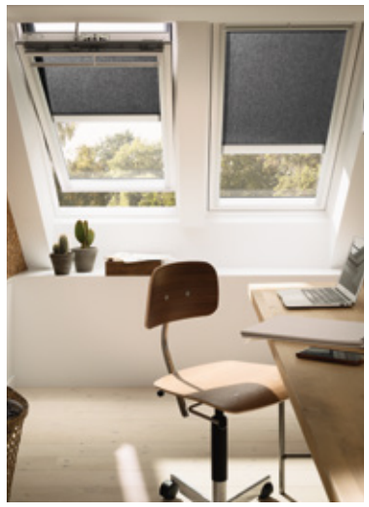
# Roller blinds

## The right daylight in your living space

VELUX roller blinds are a simple and stylish way to soften incoming daylight and provide privacy. The side channels allow the blind to be placed anywhere on the roof window allowing you to control the amount of natural light filling the room.



An easy way to soften incoming daylight.

- **Adjust as needed**
  VELUX roller blinds can be placed anywhere on the roof window so you can adjust the amount of incoming daylight throughout the day, making them perfect for living rooms.
- **Find your perfect design**
  Whether you are looking to add a splash of colour to your room or something more neutral for a modern interior, with 15 colours and designs, you'll find the perfect roller blind for your living space.

# Pleated blinds

## Softly diffused daylight for any room

VELUX pleated blinds are an elegant way to provide privacy whilst bathing your room in pleasant, soft natural light. You can adjust the amount of daylight coming in whilst still enjoying your view.

Perfect positioning to suit your individual needs

- **Total flexibility**
  Manually operated flying pleated blinds can be adjusted from the top and bottom of your VELUX roof window. This allows positioning of the blind to suit every individual room no matter the room orientation or sun direction.
- **Manage daylight in out-of-reach areas**
  Choose VELUX INTEGRA® electric or solar pleated blinds and diffuse sunlight at the touch of a button. These blinds are perfect for out-of-reach areas such as a living room or dining room extension.

# Venetian blinds

## The best solution for bathrooms and kitchens

VELUX roof windows fill any room with natural light and plenty of fresh air. Areas like kitchens and bathrooms can generate high levels of moisture and benefit from added ventilation. VELUX Venetian blinds are an ideal solution as they are made from aluminium, making them easy to maintain.

- **Cordless operation**
  Manually operated Venetian blinds are very easy to use. Unlike traditional Venetian blinds, the VELUX Venetian blind is cordless. You therefore adjust the blind using a control bar attached to the side of the blind, this allows you to adjust privacy and light.
- **Moisture resistant and easy-to-clean**
  These moisture resistant blinds are easy to clean and come in 9 different colours to suit your personal style and decor.

**Price Group 1 (PG1)**

Product code: PAL

**Price Group 2 (PG2)**

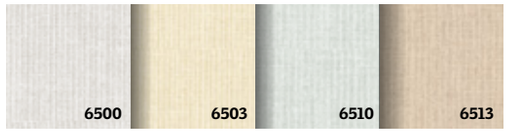
# Roman blinds

## Versatile and stylish

Enjoy a wide range of decorative solutions with VELUX Roman blinds. Explore the potential of beautiful fabrics and be inspired by the soft styling effects that make this collection refined and original. Should you want to add more personality to your room, VELUX Roman blinds come in a variety of colours and patterns.

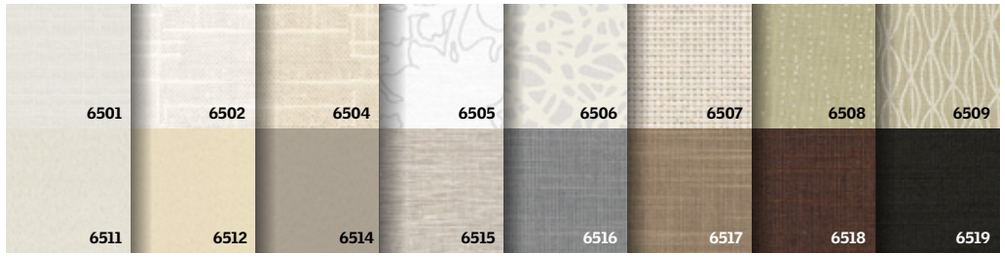
- **Versatile**
  The clever design of our Roman blinds mean you can easily swap the fabric in a matter of minutes – a perfect and easy way to update the room's interior.
- **Soft lighting effects**
  With flexible and stepless positioning, block direct sunlight and give your room a gentle glow as the Roman blinds softly diffuse light into the room.
- Roman blind fabrics can be swapped over in a matter of minutes.

**Price Group 1 (PG1)**



Product code: FHB, ZHB

**Price Group 2 (PG2)**



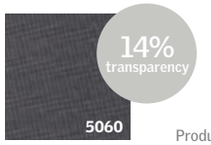
For pricing see p38

# Awnings

## Exterior blinds for heat protection

Roof windows offers up to twice the amount of daylight than vertical windows of the same size. With all this added daylight however, it's important to be able to protect your space from the sun's heat. Take a look at our exterior heat protection sun screening products to help add comfort to your home.

**Awning blind**

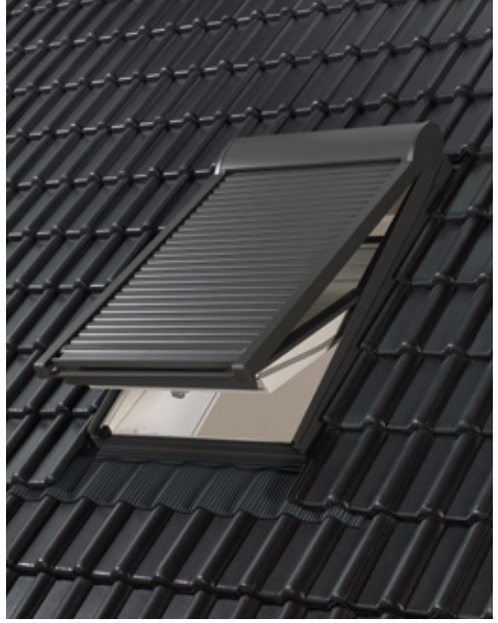


Product codes: MHL, MML, MSL

### Awning blinds

VELUX awning blinds provide solar heat reduction whilst ensuring you can maintain the view through your roof window. Available in manual, solar powered and electric.

- **Sun yes, heat no**
  Reduce heat by up to 75%.
- **Quality**
  Weather-resistant fabric for longer lasting performance.
- **Easy installation**
  Install from the inside in minutes.



Coming Summer 2020

# Shutters

### Roller shutters

From full daylight to complete blackout, VELUX roller shutters offer you additional energy saving and noise reduction.

- **Complete light control**
  Keeps out the sunlight and prevents overheating.
- **Energy saving**
  Provides insulation in cold weather.
- **Security and noise reduction**
  Provides additional security and protection from the elements.

### Soft shutters

Deliver effective heat protection keeping your home cool on sunny days. The lightweight fabric provides blackout for a better night's sleep.

- **Complete light control**
  Keeps out the light and prevents overheating.
- **Stylish design**
  Contemporary design integrates perfectly into the roof.
- **Easy installation**
  Pre-paired remote wall switch for easy operation and hassle free installation.

Combine any external awning blind or roller shutter with an internal VELUX blind **see pages 18-29.**

**Roller shutter**

# Flat roof blinds

## Heat and light control for flat roof spaces

To control the amount of incoming daylight or to reduce the indoor temperature in the summer – there are some great options to complete your VELUX flat roof windows.

### Pleated blind

Perfect for softening incoming daylight and adding a decorative touch, pleated blinds open and close with a handy pre-paired wall switch.

- **Softly diffuses incoming light.**
- **Enables privacy.**

### Light-dimming energy blind

The light-dimming, double-pleated blind with aluminium coating between the cloth layers improves insulation and increases indoor comfort. Please note that the solar blind is only suitable for flat roof windows with a clear dome, or glass top units.

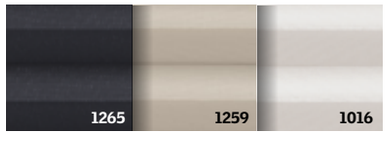
- **Blackout effect.**
- **Protects against cold from the outside.**
- **Enables privacy.**

### Awning blind

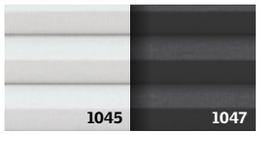
Installed between the roof window and the top cover, transparent awning blinds are solar powered and operated by remote control. They keep the indoor temperature comfortable and are easy to install.

- **Provides up to 77% effective heat protection.**
- **Dims daylight and prevents direct glare.**
- **Increases privacy.**

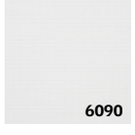
**FMG**
**– Pleated**



**FSK and FMK**
**– Light-dimming energy**



**MSG**
**– Awning**



MSG awning blind is not compatible with a VELUX flat glass rooflight.

Product codes: FMG, FMK, FSK

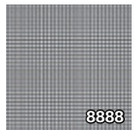
Flat roof blinds

For pricing see p39

# Insect screening and accessories

VELUX insect screens let you enjoy fresh air – without any unwanted visitors. They are simple to operate, and fit any VELUX roof window. Insect screens stow neatly away in the slim aluminium top casing when not in use.

- **100% insect-proof net fabric.**
- **Durable, transparent fabric – does not obstruct your view.**
- **Improved visibility – lets you enjoy more daylight.**
- **Mesh ensures perfect airflow.**



Product code: ZIL

**Please note:** Insect screens are mounted on the internal surround and not the window frame. You therefore need to measure your window opening to choose an insect screen in the correct size.

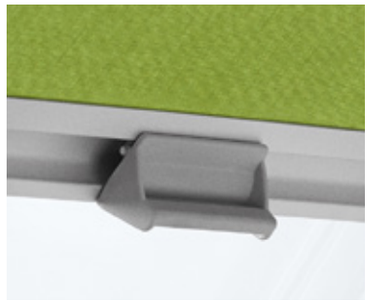
### Pole Control ZCT 200
### €39.36

The VELUX telescopic pole makes it easier to manually operate centre-pivot roof windows, or out-of-reach blinds when fitted with the ZOZ 085 adaptor. The pole extends from 100cm to 180cm.



### Pole Adaptors ZOZ 085
### €8.61

Pole adaptor for VELUX manual blinds that are out-of-reach. Use along with the pole control for simple operation.

### Pole extension ZCT 100
### €23.37

100cm extension pole for the ZCT 200.

### Control Unit KUX 110
### €145.14

For operation of an electrically operated blind on a manual roof window. Cable kit also required, please contact us for further details.

All accessories, blinds and shutters available to buy at **veluxshop.ie**
